DETAILED ACTION

This Office action is in response to the RCE filed January 12, 2006.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 8-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The language "further wherein the fluorinated polymer in the composition has a monocyclic structure" is unclear and can be seen as redundant to the first term monocyclic fluoroalcohol unit or can be seen as an addition unit. The language presents an ambiguousness to the claim. Clarification is necessary.

Claims 2 and 8-18 are seen as allowable over the prior art references of record wherein none of the prior art references anticipate or render obvious the recited composition comprosing said fluorinated polymer.

Upon correction/clarification of the language above and upon an updated search, the claims appear to be in condition for allowance.
